FOOD WASTE IN JORDAN

1- FOOD WASTE IN JORDAN

Region	H.H	Services	Retail	Total
High income	81	21	13	115
Lower middle	86	25*	15*	126
Western Asia	75*	27*	14*	116
Jordan	66*	23*	12*	101
World	79	36	17	132
	60%	27%	13%	18% of the total food

AMOUNTS OF WATER (LITER) NEEDED TO PRODUCE 1 KG

Food Category	Water (Liter)
Tomato	70
Red Meat	15,415
Bread	1,608
Banana	790
One Egg	200

MAJOR IMPACTS OF FOOD WASTE

- The value of global food waste is more than a Trillion US\$/year.
- Value of wasted food in Jordan is around 1300 million JOD (US \$ 1900 million)
- Loss of associated water is around 90 million cubic meters.
- Associated energy loss is estimated to be around 2% in Jordan.
- Food waste GHG contribution is estimated to be around 1% of the total GHG.

****Data is lacking about food waste in Jordan.***

****WFP through the Hackathon project is conducting semi-detailed studies on food waste.***

2

NOT WASTING THE FOOD WASTE

2- NOT WASTING THE FOOD WASTE

- Prevention and Reduction of Food Waste
 - Policy and regulatory
 - Awareness and training
 - Improvement of practices and infrastructure (sorting and grading, packing, cooling and storage, transportation)
- Utilization of the unused food
 - Food
 - Feed
 - Fertilizer
 - Energy

Q&A

THANK YOU
